

Technical Data: ECKO Armchair

Silk & Wood Interiors

Product Overview

The Ecko Armchair blends organic comfort and sustainable innovation in a sculptural, softly contoured form. Its fluid lines and eco-conscious materials create a timeless piece—designed to relax both body and mind, without compromising the planet.

Crafted with soybean-based foams and finished using environmentally responsible processes, Ecko is a declaration of future-forward luxury. Ideal for eco-resorts, slow-living interiors, and modern sanctuaries where conscious design meets lasting beauty.

“Sustainability is not a trend—it’s the new elegance.”
