

## Technical Data: EVEN Armchair

### Silk & Wood Interiors

#### Product Overview

At first glance, the Even Armchair radiates understated simplicity—yet on closer look, its sculptural curves and flawless proportions reveal a sophisticated piece of timeless design. With its elegantly embracing silhouette, Even becomes the perfect choice for refined interiors that seek subtle charm over ostentation.

Designed for those with a conservative eye and a modern soul, Even is a contemporary classic—discreetly bold, comfortably intelligent.

“Sometimes the quietest designs speak the loudest.”

---

#### Technical Specifications – EVEN

Feature	Description
Structure	Injection-moulded <b>polyurethane frame</b> reinforced with <b>steel tubing</b> . Seat and backrest feature <b>steel spring suspension</b> for optimal support. The entire structure is covered in <b>fire-retardant polyurethane foam</b> (UNE EN 1021-2:06 / BS 5852:06) with a density of <b>65 kg/m<sup>3</sup></b> .
Seat Cushion	Integrated and moulded from the same <b>injected polyurethane compound</b> (65 kg/m <sup>3</sup> ), offering long-lasting form and ergonomic comfort.
Base Options	– <b>Solid ash wood frame</b> for warm, grounded elegance  – Optional <b>epoxy lacquered aluminium swivel base</b> for fluid movement with a modern edge  – Fully <b>removable construction</b> for flexibility in installation and transport
