

Technical Data: MARC Armchair

Silk & Wood Interiors

Product Overview

The MARC armchair represents pure contemporary elegance, fusing minimalist design with ergonomic sophistication. With a rational, clean-lined form and a crisp silhouette, Marc harmonises effortlessly with both classic and modern interiors. Its understated originality and customisable features make it ideal for residential and contract spaces alike.

Inspired by timeless design principles, MARC is built with top-tier materials to deliver comfort, visual lightness, and long-lasting performance. Its versatility is enhanced by the option to customise legs and upholstered button details, allowing clients to align the armchair perfectly with their interior aesthetics.

Technical Specifications

1. Structure

- Frame made from **solid wood**, fully encased in **high-resilience HR foam** (40 kg/m³)
- Suspension uses **elastic webbing** with a **10-year durability guarantee**

2. Seat Cushion

- Primary foam density: **HR 30 kg/m³**
- Additional soft layer: **35 kg/m³**
- Wrapped in **150 g/m² thermo-sealed silicone fibre** for added softness and temperature regulation

3. Backrest

- Made with **HR 25 kg/m³ foam** plus an **extra-soft upper layer**
- Also covered in **thermo-sealed silicone fibre** (150 g/m²)

4. Legs (Choose one)

- **OP1: Sleek steel base**, available in Stainless Steel finish
- **OP2: Oak wood legs**, finished to match selected wood tone

5. Button Detail (Optional)

- Button on upholstery **can be fabric-matched** or contrast fabric — **colour must be specified** if included
-
